About WITTENSTEIN:

WITTENSTEIN brand is a global standard in Innovation, Precision and Excellence in the world of mechatronic drive technology. The company's high-tech products are found wherever there is a need for high-precision actuation, command and control.

WITTENSTEIN SRL Șura Mică is a subsidiary of WITTENSTEIN SE and has been producing since 2008 parts, mechanical and electromechanical assemblies, constructive groups for high-precision planetary gearboxes as well as for electromechanical drive systems.

Also, the greatest successes are based on the initiative of individual people.

That's why we are looking for determined people with courage to new ideas that accompany us and our eight successful, specialized in drive technology, subsidiaries in the future. As a leading mechatronic specialist with about 2,900 employees we offer you the open culture of a middle-class family enterprise at the same time. If this perspective is attractive, become a part of our TEAM. We look forward to your first step!
